About

I am a motivated and hardworking student with a strong interest in learning new skills and gaining practical experience. I have a good understanding of my core subjects and basic technical knowledge. I am a quick learner, adaptable, and eager to contribute positively to the organization while improving my professional skills.

Education

Vellore Institute of Technology , Andhara pradesh, India	<i>Sept 2023 – June 2027</i>
B.Tech in Computer Science	GPA: 8.10
Relevant Coursework: Data Structures, Machine Learning, AI	
Bhashyam Junior College	<i>sept 2021 – Jun 2023</i>
MPC	Percentage : 90
Bhashyam High School	<i>June 2021</i>
SSC	Percentage : 100

Skills

Languages Python, Java, C/C++, JavaScript

Cloud Platforms: AWS

Tools: Git, GitHub(Beginner), VS Code, Jupyter Notebook

Databases: MySQL

Academic Projects

FDA Drug Approval Trends Visualization	<i>Dec 2025 – Jan 2026</i>
- Technologies: Python, Pandas, Matplotlib - Developed a data visualization system to analyze year-wise drug approval trends using FDA open datasets. - Performed data cleaning and aggregation to extract approval trends by year and drug category. - Created visualizations (line charts, bar charts, pie charts) to identify approval patterns and category distribution. - Generated insights on approval frequency and trends to support data-driven analysis.	

Student Performance Prediction

July 2024 – Dec 2025

- Technologies: Python, Pandas, Scikit-learn
- Developed a machine learning-based classification system to predict student pass/fail outcomes using academic performance data.
- Implemented supervised learning models (Decision Tree / Logistic Regression) for outcome prediction.
- Performed data preprocessing, feature selection, and train-test splitting for model training.
- Evaluated model performance using accuracy metrics and prediction analysis.

Certifications

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional	<i>May 2025 – June 2025</i>
---	-----------------------------

Internship Experience

AI/ML Intern Micro Information Technology Services, Haryana	<i>June 2025</i>
- Completed a 1-month internship program as an AI/ML Intern - Gained hands-on exposure to Machine Learning and AI concepts - Worked on practical tasks related to data handling and model basics
